Ask about our many design options!

This guide is not an exhaustive representation of the equipment available.

How much will it cost me to get started?

There is absolutely **no out-of-pocket cost** for you to have a machine at your facility. We handle everything – from purchasing and setup to installation and service. Our machines are highly efficient, equipped with LEDs, and operate on nominal electricity.

Is there an obligation or commitment required from me?

In most cases, we won't require you to sign a contract. We simply ask that you agree to keep the equipment plugged in and powered on during business hours. Our commitment is to provide top-notch service and satisfaction. If any issues arise, we'll collaborate with you to make it right. Should you decide to no longer have a machine at your venue, we will promptly remove the equipment within 7 business days of receiving notice.

How long will it take to get a machine?

The installation itself is quick, usually taking only a few minutes to an hour. However, we often install brand-new machines, and due to demand, the overall process could take longer (subject to availability).

What's in it for me?

You'll have the chance to **earn passive income** while enhancing your customers' experience with a **fun and exciting addition** to their visit. We offer a commission or can discuss another arrangement that suits you. We cover sourcing, labor, product, maintenance, and credit card fees. Our standard commission rate is based on gross machine revenue!
